## ADVENTURE AND FANTASY

ADVENTURES give you a vision into the world of imagination while wrestling with brain teasing problems. You can spend countless entertaining hours in front of your computer solving mysteries and unlocking the secrets of this imaginary world.

An adventure plays like reading an exciting novel in which you the adventurer becomes the main character. With descriptive text you enter a world of fantasy that pushes your imagination to the limit and takes many delightful hours over many days to solve.

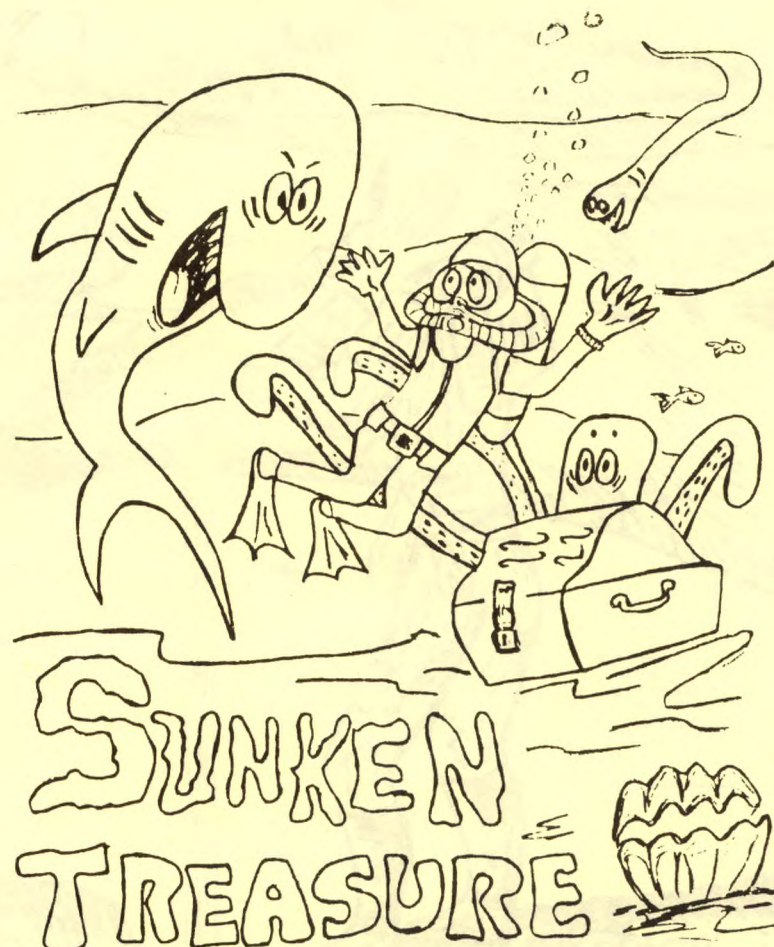

Your own computer will become the adventure master and is able to interactively communicate to you by using the TV monitor and the keyboard.

## SUNKEN TREASURE

You have just discovered the wreck of the ocean liner S.S. Crystal Princess. Can you brave the dangers within her hull and salvage the valuables still inside her ??  
BEWARE... there is a lot of danger in diving. Heh heh.

In the future man has begun to explore and colonize the stars. Outposts were set up on different worlds. But these new outposts were not selfsufficient. These outposts produced raw materials and traded for supplies and finished products. To move materials from one planet to another, shipping companies were formed. As the shipping companies expanded they grew into large multiworld corporations called...SPACE LANES.

In the game of SPACE LANES, the players start new shipping companies and then buy stock in them. As the companies grow, stock prices goes up, stocks split, and mergers occur. At the end of the game, whichever player is worth the most is the WINNER!

Will that last merger benefit you?

WATCH OUT, IT'S ADDITIVE!

A randomly generated star map insures that every game is different. For 1 to 4 shipping magnates.

Available for:

Commodore 64	
disk	ST20 \$24.95
Atari 800	
disk	ST21 \$24.95

All programs are verified by our Quality control as being loadable on the computer. Programs on Cassette are stored twice in case one may fail. If any program does not load and run, just return it and we will be happy to replace the product.

## SPORTS

### THE COMPUTER FOOTBALL LEAGUE.

Are you a football fanatic?

Do you think you're a good judge of football talent?

Are you an armchair coach?

Would you like to own a football team?

### HOW WOULD YOU LIKE TO OWN A WHOLE FOOTBALL LEAGUE?

If so this is the game for you, the TCFL. You and your friends can draft real players off of real teams to play on your TCFL teams. You can wheel and deal just like real owners and general managers as you coach your teams to a victory.

THE COMPUTER FOOTBALL LEAGUE includes eight programs on disk and a complete set of rules and an instruction booklet. It can be played year after year and the programs perform functions such as, team names, scheduling, roster, weekly scoring, total scoring and standings.

Programs are completely menu driven and easy to use.

Available for:

VIC20

disk	SP10	\$39.95
Commodore 64		
disk	SP11	\$39.95

## WE ARE LOOKING FOR PROGRAM AUTHORS!

CRYSTAL MICROSOFT is interested in authors of micro computer programs. We are interested in business, education, entertainment and other unique ideas. We pay the highest royalties in the industry and can get a program into the market place in a few weeks.

To submit a program, send a disk or tape of the program with your name and address with the necessary documentation to:

Software Evaluation Dept.  
Crystal Microsoft Ltd.  
P.O. Box 440852  
Houston, Tx. 77244

All software tested will be confidential and the Software Evaluation Dept will discuss the results with you at the earliest possible time when the evaluation is completed.
